

Priya Sharma

Software Engineer

priya.sharma.dev@example.com | +91 98765 43210 | Kolkata, India

SUMMARY

Backend-focused software engineer with 4 years of experience building scalable APIs and cloud infrastructure. Strong in Python, distributed systems, and CI/CD.

EXPERIENCE

Backend Engineer — Nimbus Cloud Systems (2022–Present)

Built and maintained microservices handling 2M+ daily requests; reduced p95 latency by 35% through caching and query optimization.

Software Engineer — Bluewave Analytics (2020–2022)

Developed data pipelines in Python and Airflow; automated reporting for internal teams, cutting manual work by 10 hours/week.

EDUCATION

B.Tech in Computer Science — Jadavpur University (2016–2020)

SKILLS

Python, FastAPI, PostgreSQL, Docker, AWS, Airflow, Git, REST APIs
